

LuneOS - Bug # 277: Browser application shows black boxes instead of characters

Status:	Closed	Priority:	Normal
Author:	Simon Busch	Category:	
Created:	11/02/2012	Assignee:	Donald Kirker
Updated:	04/13/2013	Due date:	
Description:	When loading different websites within the browser application mostly every character is displayed as black box. Only on some websites characters are displayed correctly.
