

LuneOS - Bug # 379: Wi-Fi not connecting, sysmenu incorrectly representing security

Status:	Closed	Priority:	Normal
Author:	Josh Palmer	Category:	
Created:	02/24/2013	Assignee:	Simon Busch
Updated:	01/14/2014	Due date:	
Description:	Wi-Fi will not connect to open networks, also the System Menu shows all networks with a padlock regardless of security. Image: http://build.webos-ports.org/webos-ports/images/grouper/webos-dev-image-grouper-elc-20130221071629.rooftfs.ext2 Logs: http://pastebin.com/6CDnzSkW Repro: Fresh boot Open System Menu Turn on Wi-Fi If networks show, they will all be listed with padlock (Sometimes they will not show at all) Open Settings Wi-Fi networks show with the correct security Tap unsecured network Nothing happens
